

## WPF-20CL Poly Vinyl Chloride (PVC)

### FEATURES

- high strength
- very rigid
- economical
- high impact strength
- flexible

**DESCRIPTION:** WPF-20CL is a calendared film.

**APPLICATIONS:** Originally developed for cold forming and fabricating, this film performed reasonably well in the window patch market.

**Available gauges and Yields: (in.sq/lb.)**

Gauge:	.004	.0075	.010	.015	.020
Yield	5,160	2,750	2,060	1,380	1,030

### PHYSICAL PROPERTIES:

*Due to the variety of PVC compounds available today, no one set of specifications would serve to accurately represent the current state of the market. We have, therefore, chosen to forego the typical specifications normally published in this section.*
